

# The only conservative to sign both the Americans for Prosperity and Americans for Tax Reform no new taxes pledges

## **JOBS AND THE ECONOMY**

My husband is a small business owner – I know that small business is the backbone of New Hampshire's economy. I will fight to ensure a pro-business environment through reduced regulations and lower taxes. This effort will create good jobs for working families, encourage people to own and operate a small business here, and help young people find a job in the Granite State. I also strongly oppose any sales or income tax.

## **LIFE**

My husband and I are the proud parents of two daughters. I am pro-life and believe that all human life is worthy of protection. As your State Senator, I will fight for policies that do so.

## **RIGHT TO WORK**

I am an ardent supporter of Right to Work. I firmly believe that an individual should have the right to decide whether or not to join a union.

## **SECOND AMENDMENT**

I am a supporter of the Second Amendment and will preserve and protect the constitutional rights of an individual to keep and bear arms for any lawful purpose.

*"I'm a conservative, a community leader, and a mom. I have the experience and passion to fight for smaller, more responsive government, lower taxes, the dignity of human life and our individual freedoms and liberties, while taking on the opioid crisis facing our state. I'd be honored to earn your vote on September 13th."*
